- Simplicity
- Respect

Welcome to Testtheri & Rhoda Projects and Consulting Limited

We are happy to have you on our website today. Testtheri & Rhoda Projects and Consulting Limited is born out of passion to bring new ideas, new innovation and new technology to the world of Civil Engineering & Construction, Project Management Consultancy and to assist companies that are so passionate about project management and controls, by training and re-training their Project team especially the Planners and Schedulers on the best way to use project management software to enable them complete their project on time, with the specified quality and within the budget.

From our experience at Testtheri and Rhoda, we learnt that most of the People handling Project Management (especially the Project Planners and Schedulers) do not undergo any formal training or orientation before 'jumping' into the world of project management. Therefore, at Testtheri & Rhoda Projects and Consulting Limited you will be taught the best practices of delivering your project on time, within the budget and the specified quality and also mold you to become a professional project Planners and Schedulers.

Institutions (Polytechnics & Universities) that offers either Project Management or Construction Management can contact us to train their student on some practical ways of applying MSP and Primavera P6 to real life project Management. We will tailor our training(s) to align with your organizational internal processes and procedures.

Project Management

CONSULTANCY

We carry out Project Management Consultancy Services for different Companies & Industries (Construction, Manufacturing, Oil and gas and others) on the area of Project Supervision, Schedule Analysis, Earned Value Analysis (EVA), Forensic Schedule Delay Analysis and Others.

Testtheri & Rhoda Projects and Consulting Limited as a project management consultancy company, can act as planner, advisor, and as project management team leader to conceptualize and implement solutions that relate to quality or process improvements.

We can manage your project from initiation to completion. Or if your active project is missing milestones or is lacking momentum. You can contact us and we will deploy project management consultants to get your project back on track.

Project Management

TRAINING

To carry out Project Management trainings for the Individual, Groups, Tertiary Institutions (those Institutions that offers Construction Management and Project Management) or Companies & Industries using Primavera P6, Microsoft Project, Asta Power Project, and other Project Management Softwares:

- I. **Primavera P6 Training** - At Testheri & Rhoda Projects and Consulting Limited, we give you the opportunity to learn Primavera P6 – Version 8.0 – 18.7 either as an Individual or as a group. We believe that learning should be tailored to the need of individual or group and Primavera P6 training is not an exception. You will be taken through the basic principles need to accelerate your mastery of the software with the practical application to any human endeavours. Enroll with us and we will make you to be a master of the software in a very short time.
- II. **Microsoft Project Training** - Microsoft Project Version 2007 – 2016 training is also one of our services. We are ready to teach you all you need to know about Microsoft Project (MSP) and take you through the practical application of this software to construction, IT, manufacturing and other areas that project management practices are used. All the project team is expected to have good knowledge of this simple but powerful project management software to enable the complete the project on time, with the specified quality and within the assigned budget.
- III. **Practical Application of Project Management Software** - It is our duty at

Testheri & Rhoda Projects and Consulting Limited to teach you practical application of these Project Management Software in Construction, Engineering, Manufacturing, and other areas where the value of Project Management is held in a high Esteem.

- IV. **Helping companies convert their schedules from MSP to Primavera P6 and vice-versa.**
- V. **EOT preparation** – Training of the Project team (especially Project Managers, Planners, Schedulers, Quantity surveyors and others) those things that they supposed to take note of during the execution stage of the project in case they will need prepare an Extension of Time (EOT) claims.
- VI. **Training for students in Higher Institutions** (Polytechnics & Universities) that offers either Project Management or Construction Management on some practical ways of applying MSP and Primavera P6 to real life project Management.
- VII. **Training Planners and Schedulers** the 10 best Planning and Scheduling practices in conjunction with the General Acceptable Project Scheduling rules according to PMI and DoD.
- VIII. **Application of XER Schedule Toolkit** to view and analyze MSP & Primavera P6.
- IX. **Help companies manage their project management processes** (Initiation, planning, execution, monitoring & controlling and project close out)

Project Planning & Execution

A close-up photograph of a hand holding a black pen with a silver tip, writing on a document. The document features a bar chart with blue bars. The background is slightly blurred, showing more of the document and the hand.

We undertake Project Planning services, Project Execution services, Project Monitoring and Controlling services & Project Reporting & Assessment services for various Companies & Industries (Construction, Manufacturing, Oil and gas, and others).

Testtheri & Rhoda Projects and Consulting Limited, will assist the above listed companies and industries by undertaking Project management consultancy from the inception to the close out of the project.

At Testtheri & Rhoda all our Project Managers are certified Project Management Professionals with a combined 25years of experience, which proudly gives us a competitive edge when it comes to leading teams. We also know what it takes at each phase to make a project successful, and we work hand-in-hand with internal and external stakeholders to achieve the desired outcome.

Construction of Building & Civil Works

■ Let us Build your DREAMS!

At Testheri & Rhoda Projects and Consulting Limited, we pride ourselves of vast experience in the Building and Civil works industry with the team of professionals who has involved in both high-rise and low-rise residential buildings, commercial buildings, Estates, and institutional buildings.

We work closely with our clients to accurately interpret their dreams/visions in drawings and bring them to the desired reality through construction solutions to meet their needs; We constantly carried out regular communication with our clients throughout the construction process to keep them informed of progress and to ensure that our project keeps on schedule and within budget.

Building and maintaining relationships with our customers is at the heart of our business and we have a planning and management style that is consultative and systematic.

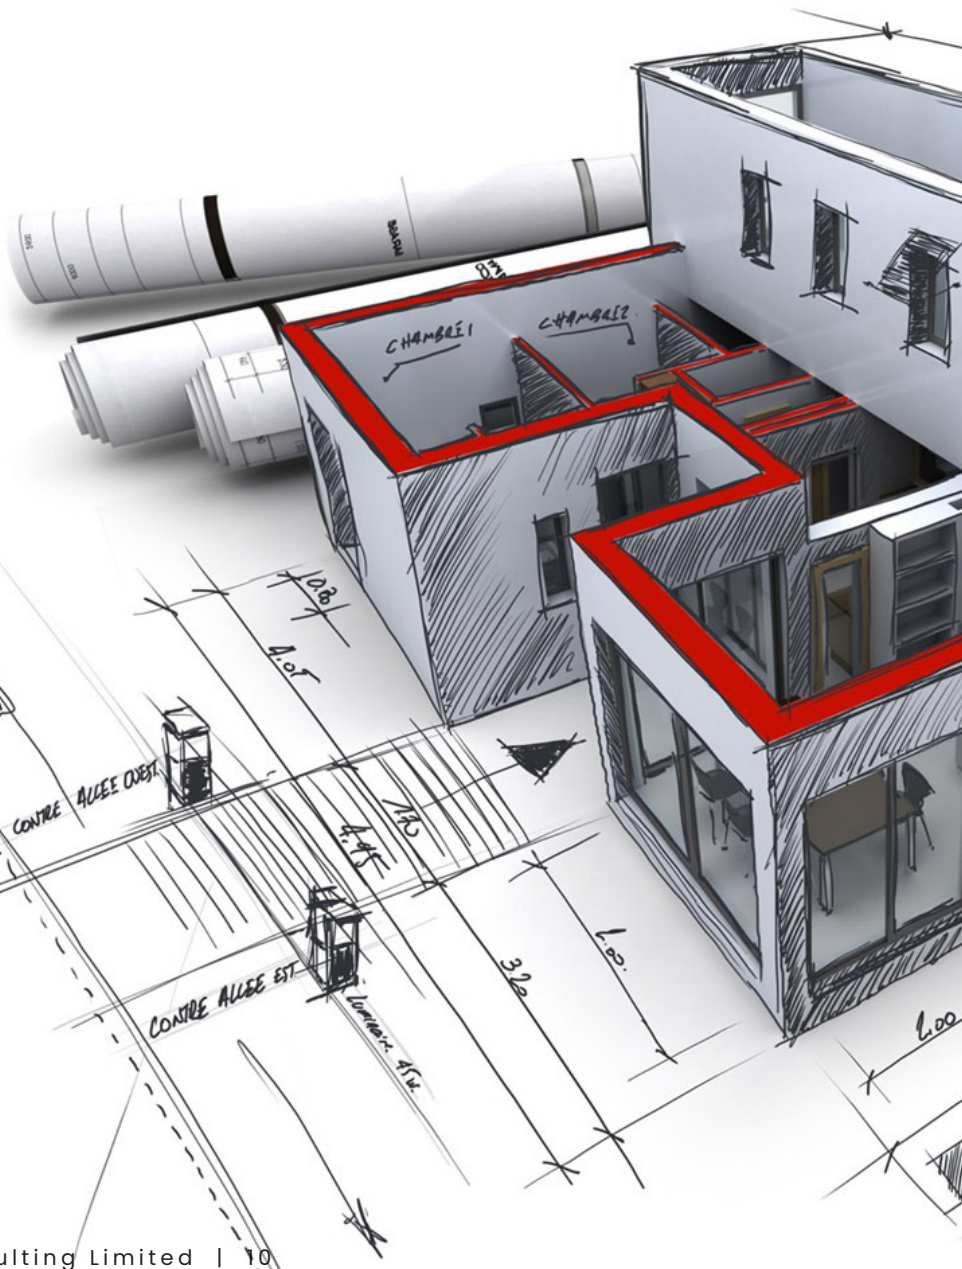

We believe in a proactive approach to all aspects of our business, but also to quality, safety, and delivery. By getting this right, we give our customers confidence and peace of mind during the process of planning, design, and construction.
